PROFESSIONAL SUMMARY

Driven Computer Science student with hands-on expertise in full-stack development and AI-powered application design. Proficient in Python, Java, and C with demonstrated ability to build scalable backend systems using FastAPI and integrate intelligent solutions leveraging LLM integration and prompt engineering. Strong problem-solver with excellent analytical thinking and collaborative skills. Passionate about creating innovative software solutions and committed to continuous learning in emerging technologies.

TECHNICAL SKILLS

Programming Languages: C, Python, Java (Basic)

Web Frameworks & APIs: FastAPI, LangChain, Groq API, REST APIs

Databases: SQL

Tools: Git, Figma

Concepts: Problem Solving, DSA, LLM Integration

PROJECTS

Interview Forge

- Developed an AI-powered interview simulator using Python and LangChain.
- Integrated Groq LLM API to generate dynamic DSA interview questions and evaluate responses.
- Implemented automated scoring and feedback mechanisms for interview preparation.

InternPath AI

- Developed an NLP-based resume analyzer using spaCy and NLTK to extract skills, education, projects, and experience from resumes.
- Built an internship readiness scoring system based on CGPA, skills, projects, and experience.
- Implemented a fake internship detection module using URL, keyword, and company-detail analysis.
- Created a skill-based internship recommendation engine by matching candidate profiles with internship requirements.
- Integrated a RAG-based chatbot with vector embeddings and LLM APIs for context-aware query responses.

INTERNSHIP EXPERIENCE

Tata Group Data Analytics Job Simulation – Forage

May 2026

- Completed a virtual job simulation on AI-powered analytics and strategy for the Financial Services team at Tata iQ.
- Performed EDA using GenAI tools to identify risk indicators and support predictive modeling.
- Developed a no-code framework for customer delinquency risk prediction using GenAI-driven logic.
- Designed an ethical AI-based collections strategy with compliance and automation focus.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science Engineering

College of Engineering Chengannur | 2023 – Present | CGPA: 8.53

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks

CERTIFICATIONS & ACHIEVEMENTS

- The Joy of Computing Using Python – NPTEL, IIT Madras
Jul 2025 – Oct 2025 | Score: 86%
- 1st Position – WAR ROOM Startup Simulation
GDG On Campus, College of Engineering Chengannur | Jul 27, 2025
 - Secured first place in an 8-hour startup simulation competition.
